Subject: Remaining 2002 WSA Project Reviews
Importance: High

Dear Project Leaders:

As it currently stands, here is the plan for the remaining WSA project reviews:

June 13 (8:30 am - 12:00 noon, Richmond time) MOC Conference Room - Audio only (Program areas covered: Cancer, CVD, COPD)

July 30 (8:30 am - 11:30 am, Richmond time) (Program areas covered: Repro, ETS, Smoke Exposure)

August 27 (8:30 am - 10:30 am, Richmond time) (Program areas covered: Acceptability Assessment, Harm Reduction Guidance/Evaluation)

September 12 (8:30 am - 11:30 am, Richmond time) (Program areas covered: Clinical Testing, Non-Clinical Testing/Research, Communication)

Since we are having to shift the reviews forward a month because of last months video difficulties, times for these reviews may be slightly different. Please make a note of those dates in which your projects are being reviewed and hold those dates on your calendars. Details confirming agenda and location will be circulated closer to the actual review dates.

If you have questions, please let me know.

Thanks,

Robin Phillips
